

Pegasus Astronomical Society

Star Party
Int'l Observe the Moon Night
Saturday, September 18, 2010
6:30 pm - 11:00 pm
Plunkett Field, UCO Campus

The Society will hold a star party in conjunction with NASA's Night Sky Network International Observe the Moon Night. The primary object to be observed will be the moon but also we will look at

- Jupiter,
- Venus,
- Several star clusters and nebulae, and,
- The sun before sunset with the club's Coronado Hydrogen-Alpha Solar Telescope.

Light refreshments and soft drinks will be available.

There will be no rain date for this event since it is synced with the Night Sky Network event. In the event of inclement weather, Prof. Ellington will give a talk in MCS 109 the evening of the event.
